Re: Petroleum Additives Panel Health Environmental and Regulatory Task Group HPV Challenge
Final Submission for the Arylpolyolefins Category

To Whom It May Concern:

On December 16, 2002, the American Chemistry Council, Petroleum Additives Panel, Health, Environmental and Regulatory Task Group (HERTG) submitted a test plan and supporting robust summaries for the following two chemicals in the arylpolyolefins category (also referred to as Group 2 in HERTG communications):

- Benzene, C₁₄-C₂₄-branched and linear alkyl derivatives (CAS # 115733-08-9) referred to in this report as the "C₁₄-C₂₄ alkaryl derivative."
- Benzene, polypropene derivatives (CAS # 68081-77-6) referred to in this report as the "polypropene derivative."

The HERTG has completed the proposed testing described in the test plan for the arylpolyolefins category. Attached to this letter are the HERTG's final HPV submissions of the category analysis document, corresponding robust summaries and references which are submitted to fulfill the HERTG's HPV commitment for the arylpolyolefins category.

If you have any questions or comments, please contact me at (703) 741-5607 or via email at Sarah_McLallen@americanchemistry.com.

Sincerely yours,

Sarah Loftus McLallen
Manager, HERTG
